

# Release Notes

## Winpos Mega - Version 1044 SP2 Release

05 June 2023

### Issues Fixed

#### Critical and Severe Issues fixed

- **Backoffice (Price lists):**

- Fixed an issue with 'copy pricelist' when used as shown below to update prices:

The screenshot shows a software window titled "Pricelist maintenance" with three tabs: "Create pricelist", "Copy pricelist", and "Online check". The "Copy pricelist" tab is active. It contains several input fields: "From" with a dropdown menu showing "2" and "TEST", "To" with a dropdown menu showing "1" and "Normal", and "Execute" with a date dropdown set to "31/05/2023" and a numeric field set to "0.00.00". There is a "Print label" checkbox and an "Execute" button. Below the form is a table with columns: "#", "Shop", "Execute", and "Date".

- Made some improvements to load large pricelists faster.
- Change made to highlight duplicate rows in the same pricelist. Duplicate rows are highlighted in yellow when the duplicate row is entered.

(#6527)

- **KDS/TOB:** Drive-through orders no longer disappear from TOB after being completed in KDS. (#7676)
- **Kitchen receipt:** An issue has been fixed with kitchen receipt where additional information was not cleared out from one transaction to the next.

The issue was:

- add additional information to kitchen receipt '1', finalize receipt.
- add additional information to kitchen receipt '2'.
- kitchen receipt '2' was printed with the additional information from receipts '1' and '2'.

(#7792)

- **Self-service:** Fixed an issue with self-service and coffee card coupons, where coupons from the previous purchase were visible in the current transaction. (#7805)

## Other Issues fixed

- **KDS/TOB:** Fixed an issue in KDS/TOB when using '*Close row separately*' option in KDS and there is more than one row of the same article on an order.

Now, marking one of the 'duplicate' article rows on the order, only sets that one article row on the TOB to green (before it would set all of the 'duplicate' rows for that article in the order to green). (#7642)
