Issues Fixed

Critical and Severe Issues fixed

Issues Fixed

Critical and Severe Issues fixed

- **POS (Guest Check):** Fixed an issue with guest check: if table main receipt was paid and chairs remained open, the table was not shown as being open any longer. (#7951)
- **Invoices:** Fixed an issue with sub-recipes where incorrect quantities were added to JournalItem table. (#7960)
- **WCI:** Fixed an issue with function button #174 'wristband operation' with COM port scanner and when using additional information 'hotel_reservation_association'. (#7968)
