# Release Notes

Winpos Mega - Version 1046 SP2 Release

7 March 2024

Issues Fixed

- **Infrasec (Swedish fiscal solution)**: Resolved an issue where the default timeout value of 1 second was sometimes unsuitable for an environment by adding an optional user-maintained timeout value.

   This has been added to the Back office > Peripherals > Control Unit tab for Infrasec:

   Note: The timeout should be entered in milli-seconds.

   (#2483)

- **POS (REG)**: Fixed an issue where the 'Tallink Preorder' window was incorrectly displayed when using Transaction Void (Preset button Type 17) **(#2470)**
- **POS (REG)**: Fixed 'invalid sum/crash' error which occurred when tendering a transaction where it contains a recipe selection line with quantity of zero **(#2472)**
