### Issues Fixed

- **Back office (Parameters > Settings > Copy Settings for NEW terminal):** Fixed an issue with Copy Settings function in Parameter Settings which occurred when using the function to copy settings from an EXISTING to a NEW terminal. (**#2461**)
- **Back office (Parameters > Settings > Search):** Fixed a bug where using the Search function in Parameters > Settings and then updating the found setting did not always send the update to client systems. (**#2338**)
- **EcEle:** Fixed an issue so that stock on clients updates correctly, even when a longer time has passed since the receipt was created. (**#2533**)
- **POS/REG:** Changing the quantity of an article in the sales basket and then pressing "Other payments" button no longer generates an error. (**#2488**)
- **Tallink PreOrder:** Made some fixes to Tallink's PreOrder solution e.g. text/wording and new version of LogisticsManager.
