Release Notes

Winpos Mega - Version 1046 SP6 Release

24 April 2024

Issues Fixed

- **Back office (Barcode label printing)**: Printing more than one label now correctly shows user-readable text (e.g. EAN-codes) correctly. **(#2485)**

- **Invoices (EcEle and Finvoice)**: Fixed an issue where using multiple payment methods would result in incorrect totals being applied to Invoices. **(#2484)**

- **Self-service (sales basket mode)**: Fixed an issue with self-service in sales basket mode, where the message "Processing data, please wait" was displayed indefinitely on the 'Order number completion' screen. **(#2688)**

- **Winpos Mobile - Kitchen printing**: Deleting article rows from tables in Winpos Mobile now correctly prints to kitchen printer if the article had one defined. **(#2661)**
