# Release Notes

## Winpos Mega - Version 1046 SP8 Release

## 5 June 2024

## Enhancements & Changes

### Dojo card payment integration (Standard POS with Dojo Pay at Counter terminal) (UK ONLY) (#2489)

Developed an EMV integration with Dojo card payment solution:

- Standard POS (REG) with Dojo Pay at Counter terminal.
- Dojo terminal is PAX A920.

Further information is available in separate documentation.

# Issues Fixed

- **Back office (Fast adjustments)**:
    - Fixed an issue in Departments maintenance where fast adjustment changes done to Departments or Sub-departments were not transferred to client systems. **(#2675)**
    - Fixed an issue with Parameters > Tax classes maintenance which incorrectly generated an error message "Could not find data in database Country/Leg" on systems that do no have them. **(#2675)**
- **Back office (Price Lists)**:
    - Fixed an issue with change Price List functionality, where changes were not sent to clients if they were within the first ~50 rows. **(#2749)**
    - Included final code changes for 'Execute price list with scheduled report' , originally developed under **#2029**. **(#2754)**
- **Fiscal (Latvian)**: Fixed an issue with Latvian Fiscal functionality so that EAN data is correctly sent to the fiscal solution when an article is scanned. **(#2785)**
- **Procounter integration**: Fixed an issue where Procounter incorrectly rounded decimals in the tax field. **(#2676)**
- **Reports**: Fixed issues with report header where the .RDLC filename was incorrectly output as part of the header. **(#2664)**
- **Stock**: Minor changes made to the StockPluTransactionsItem table. **(#2666)**
- **Total Order Board**: Fixed a bug where EAN codes were not correctly displayed on the TOB. **(#2785)**
- **Winpos mobile**: Paying a table in Winpos Mobile now correctly closes the table in standard POS (REG).. **(#2766)**
