Release Notes

Winpos Mega - Version 1046 SP9 Release

20 June 2024

Issues Fixed

- **Back office (Goods Received)**: Fixed a bug in Goods Received which could lead to a DB timeout. This happened in Back office > Stock > Goods Received as follows:
    - Add article
    - Press save
    - Delete the list
    - Add new item
    - Press save

    (#2824)

- **Back office (Reports)**: Batch reports no longer sends out more e-mails than needed. **(#2854)**

- **POS (REG)**: The POS will now display a message "Processing data, please wait" in cases where it is processing may fast inputs. **(#2813)**
