Winpos Mega - Version 1047 SP1 Release

2 December 2024

Issues Fixed

Issues Fixed

- **Backoffice:** Fixed numeric sort order issues with Grid in multiple windows related to Inventory. **(#3044)**
- **Invoices:** Procounter invoices, Winpos invoices and finvoices now show discount rows. **(#3003)**
- **Life's supplier interface:** Fixed some small issues with Life's supplier interface. **(#3271)**
- **POS/REG:** Fixed an issue where the hard-coded Waiter report did not show the correct value for Declaration Period number. **(#2864)**
- **POS/REG:** Fixed a bug with parameter setting '*Profit center change for single receipt*' where the bug sometimes incorrectly stopped the profit center change from happening. **(#3021)**
- **POS/REG:** Fixed an issue with multiple tabs of recipes where the selections used caused incorrect quantities on the receipt. **(#3025)**
- **POS/REG:** Fixed a bug which stopped Bancomat financial transactions from working. **(#3142)**
- **Self-service:** Fixed a bug with Tallink VIP payment method. **(#3168)**
