Release Notes

Winpos Mega - Version 1047 SP7 Release

13 February 2025

Issues Fixed

- **Mobile App + Self-Service + Security element function**: Fixed an issue so that it is now possible to remove the security element before payment in Self-service using the Mobile App security function. **(#2479)**

- **Stock functionality**: The creation time for stock functions is now written correctly to the database. **(#3460)**
